Millennium Falcon – (75389, 75257 & 75105)

75257 Instructions

Insert the first adaptor piece into the centre of the underside of the ship. Note you will need to remove the turret and ball joint element for the 75257 falcon variant. *Technic pin from the spare 75257 pieces.
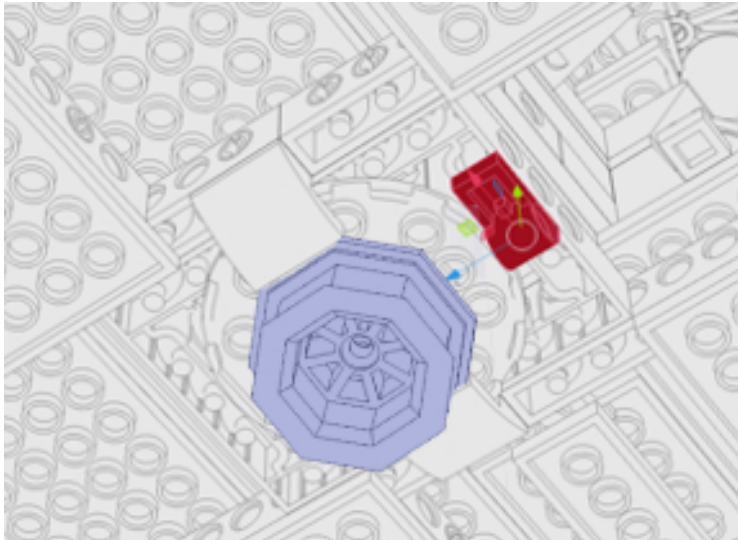

Next you will need to remove the Escape pod as shown.
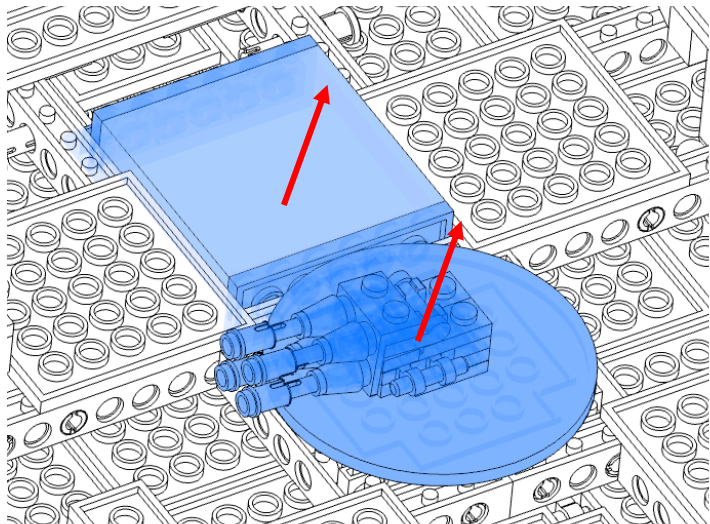

shown in red.

Place the second adaptor over the first and lock in place using the included Technic pins.
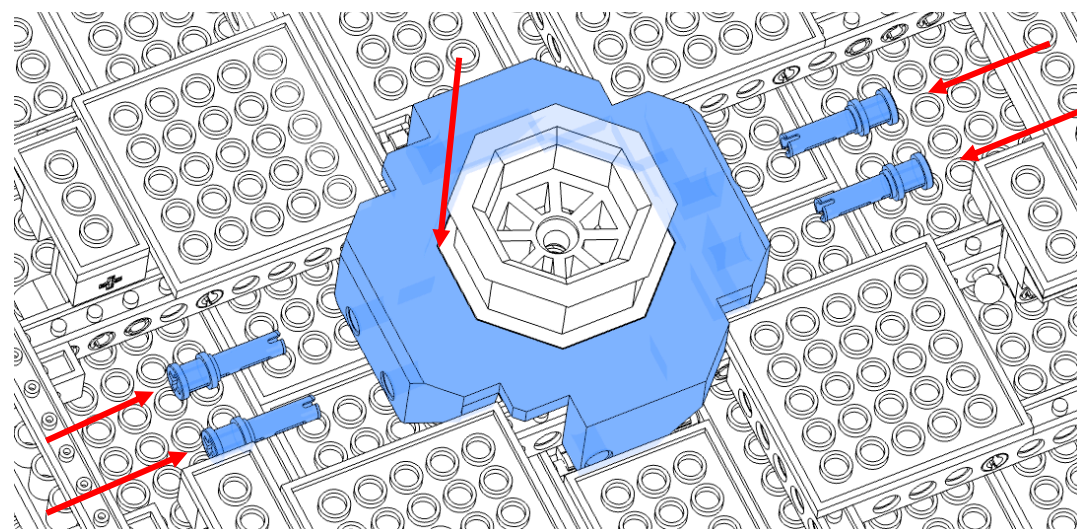

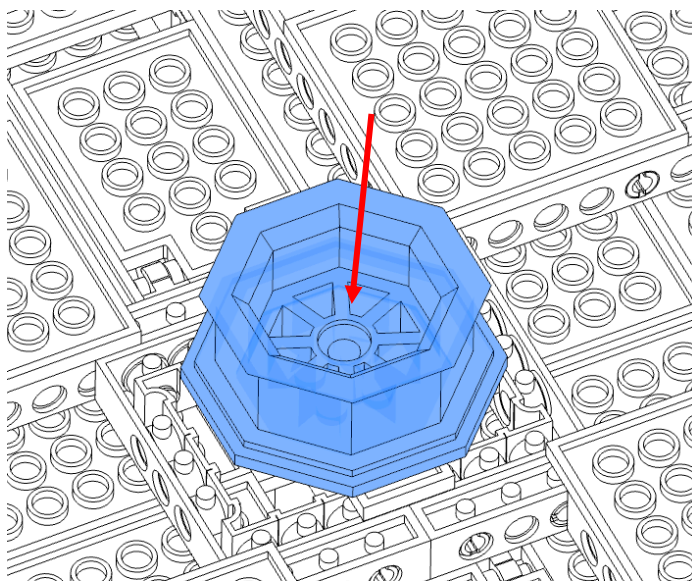

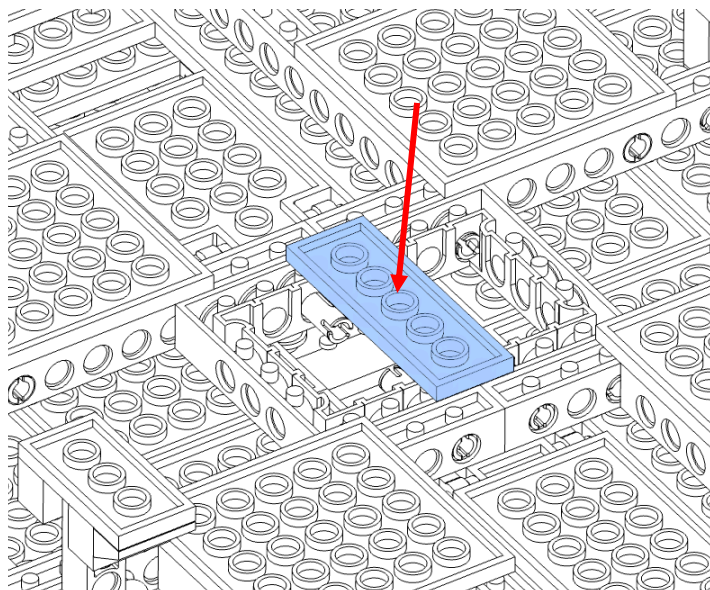

Wall Mount Instructions
Millennium Falcon – (75389, 75257 & 75105)

Remove these pieces from the bottom of your set
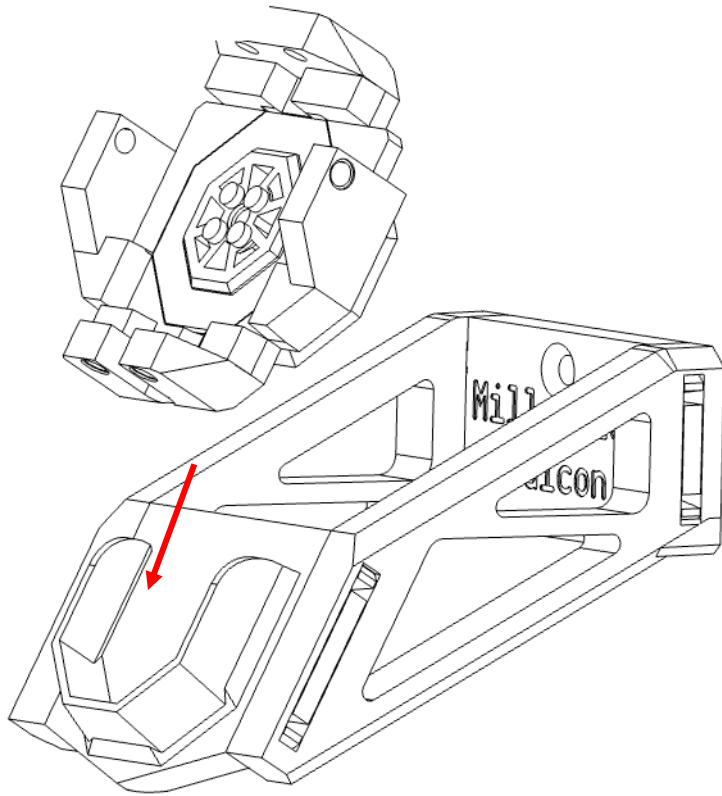

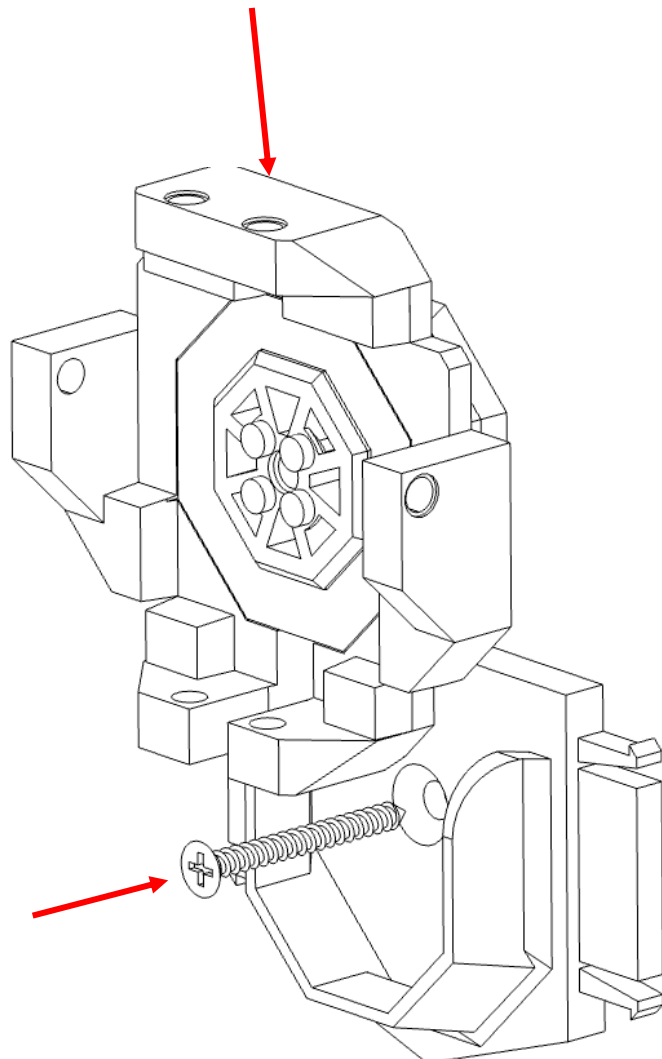

Then re-attach the 2x6 plate as shown

Use the two pins removed previously plus two pins from the bag in the wall mount kit
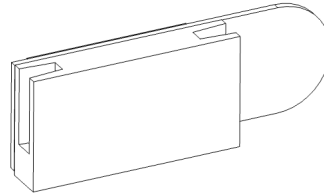

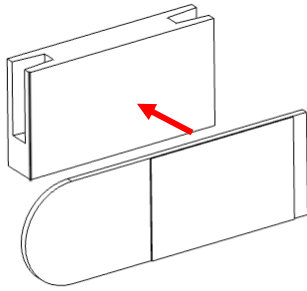

Can be rotated about 8 different angles and then inserted into the slotted plate

You can also mount the front stretcher directly to the wall for flush to the wall mounting of the set.

Wall Mount Instructions
Millennium Falcon – (75389, 75257 & 75105)

Apply command strip to the cleat. Then secure this to the wall this way up. Finally slid the minifigure mount onto the cleat.
